and information from the manufacturer are included with the product.

Risk category (PPE regulation): category II - Protective equipment to protect from danger

Product description

Available in the reading strengths: Additions: +1.0 / +1.50 / +2.00 / +2.50. With our ready-made progressive reading glasses UNIvaria ProClean and Eco we solve the issue of too short arms and offer visual comfort in HD quality for reading distances. The progressive design, which has been especially developed for this purpose with around 27,000 calculation points, ensures a smooth transition from the corrected reading area to the uncorrected distant area. This eliminates the need to change reading glasses and safety eyewear. Thanks to UNIvaria ProClean and Eco, you have safety eyewear that also allows you to read nearby.

Article no: 2182 7052 00.1

Colour of frame: crystal/grey

Execution:

Lens type: 2C-1.2 1 F CE

Size: 54/19
Mechanical resistence: F

Tint color: clear | clear

Coating: Super-Antireflex | UV protection | cleaning layer | fog-free | scratch-resistant

Material lens: TRIVEX®

Branch code: Agriculture/Forestry/Fishery | Chemical industry | Construction/road construction | Craft

sector | Gastronomy | Horticulture | Mechanical engineering | Metal processing industry |

Printing industry | Waste management | transport/warehouse/logisitcs

Optical Class 1 with particularly high requirements for visual performance for continuous use according to EN166:2001
